Q1 Fridays are  
usually good.  
Except in  
October, give  
me a date.

Q2 I asked a  
German man if he  
could give me the  
time, I could tell he  
didn't like  
foreigners. He  
responded with no.  
What number did he  
appear to say?

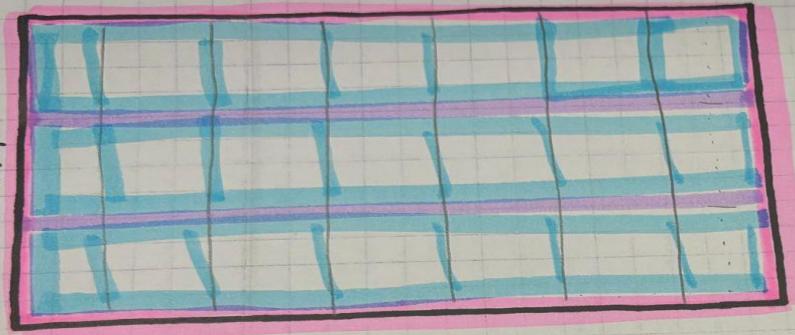

Q3 I am a  
single digit,  
but multiply  
me by two,  
Then add  
three to me,  
and you'll  
see it's true.  
What number  
am I?
